

ICOMST 2009, Copenhagen

Prosafefbeef Symposium on August 21st 2009, Copenhagen

Advancing beef safety and quality through research and innovation

- 9.00 am Introduction to Prosafefbeef
Mr Declan Troy, Teagasc, Ashtown Food Research Centre, Ireland
- Session 1: Emerging topics in beef safety**
- 9.15 am Dr Geraldine Duffy, Head of Food Safety, Teagasc, Ashtown Food Research Centre, Ireland
Quantitative microbial risk assessments for beef pathogens
- 10.05 am Dr Martin Danaher, Teagasc, Ashtown Food Research Centre, Teagasc, Ireland
Novel methods for detection of chemical contaminants including dioxins in beef
- 9.40 am Dr Wim Verbeke, University Ghent, Belgium
European consumers' interest in beef safety and beef safety information
- 10.30 am Coffee/ Tea break**
- Session 2 Emerging developments in healthy beef and innovation**
- 10.50 am Dr Marcia Dutra de Barcellos, Aarhus University, Denmark
Beef healthiness and nutritional enhancement in beef as perceived by European consumers
- 11.15 am Prof. Nigel Scollan, Aberystwyth University, Wales
Impact of the rumen in influencing fatty acid composition of beef
- 11.40 pm Dr Oydis Ueland, Nofima Food
Consumer acceptance of novel beef processing technologies
- 12.05 pm Dr Alain Kondjoyan, INRA
Modelling the kinetics of formation of heterocyclic amines (HA) in slices of beef muscles subjected to heat treatments
- 12.30 pm Close
